Meet Our New dHL Experts

dHL is thrilled to welcome an incredible group of virtual researchers and STEM experts now available to support youth and learning across Canada. Connect with *dHL Experts* for career talks, educational programs, inquiry support, Q&As or mentorships on a date and time that work for you and your students. [Login](#) and search keyword *VirtualResearcher* to learn more about what our new *dHL Experts* have to offer!

VIRTUAL RESEARCHERS & STEM EXPERTS

Jeffrey Atkinson
Professor, BrockU
Bio / Chemistry
Medicinal Chemistry,

Pauline Barmby
Professor, UWO
Astronomy

Dr. Ray Clement
Professor (retired)
Chemical Analysis,
Environmental Chemistry

Dr. Maria DeRosa
Professor & Researcher, Carlton
Chemistry, DNA,
Nanotechnology

Michael Fox
Retired Professor, TrentU
Fish Ecology
Aquatic Invasive Species

Dr. Mary Louise Hill
Geologist, LakeheadU
Geology

Brian Ingalls
Professor, UWaterloo
Mathematics, Microbiology
Computing

Achim Kempf
Professor, Perimeter Institute
Physics, Mathematics
Information Theory

Rebecca Merkley
Assistant Professor, Carlton
Cognitive Neuroscience,
Science of Learning

Craig Merrett
Aerospace Engineer, Clarkson
Engineering, Flight, Space

Jeff Orchard
Professor, UWaterloo
Computer Science
Mathematics, AI

Nathalie Ouellette
Astrophysicist, UMontréal
Space, Galaxies, Black Holes
Exoplanets, Alien Life

Brian Shilton
Professor, UWO
Genes, Cells, Molecules
Biochemistry, Molecular Biology

Jordan Stanger-Ross
Professor, UVic
History; Japanese Canadian
Internment & Dispossession

Peter Watson
Emeritus Professor, Carlton
Physics, Astronomy

Never doubt that a small group of thoughtful citizens can change the world.

Indeed it is the only thing that ever has. ~ Margaret Mead

New dHL Experts Across the Curriculum

Meet a few of our new talented Experts and organizations available to connect and collaborate with your K-12 students. Curious? [Login](#) to dHL and browse our full *Video Conferencing Catalogue* where you will find hundreds more!

HUMAN LIBRARY
VIRTUAL TOURS / VR CATALOGUE

**Over 500 NEW
Virtual Tours & Virtual Reality
Experiences for K-12!**

We are thrilled to announce over 500 new Virtual Tours & Virtual Reality experiences have been added to our incredible collection! dHL now has over 1500 annotated educational VT/ VR experiences to enhance classroom learning and provide students with an immersive digital window to the world.

What is a Virtual Tour (VT)?

Virtual tours are the simulation of an existing location with the help of sequential videos or still images. Other multimedia elements like music, sound effects, floor plans, etc., could also be used. They help in recreating a realistic representation of reality. Virtual tours help in presenting views to inaccessible areas and provide an interesting and excellent alternative to fieldwork when expenses, time or logistics are a barrier.

What is Virtual Reality (VR)?

Virtual Reality (VR) is a 3D computer generated 'virtual' environment that users explore and interact with in an immersive way. The feeling of being present in these environments requires the use of a VR headset. Some examples include: Oculus Rift, Samsung Gear VR, HTC Vive, Google Daydream View, or Google Cardboard.

While immersing yourself in VR requires a headset, the foundational component of all virtual reality is 360° video, which means that dHL tours can be navigated on desktop computers or mobile devices.

Featured Sample Tours!

Honey Bees - Hive

Take an intimate look at the life of a beehive. This infrared view of the inside of the hive shows the complex inner workings of the colony as they build combs, produce honey, protect the queen, and raise a new generation of workers and drones. Building their communal home inside a large hollow log, the colony is located in the town of Waal in Bavaria, Germany.

Canadian Museum of Civilization

With roots stretching back to 1856, it is one of Canada's oldest public institutions and a respected centre of museological excellence, sharing its expertise in history, archaeology, ethnology and cultural studies both within Canada and abroad. In addition to its ongoing exhibitions, including the First Peoples Hall...

Education for Social Innovation

What is Education for Social Innovation?

Education for social innovation is about recognizing and acting on the power we have for making a positive difference in the world. By creating opportunities for students to experience how positive change happens, and more importantly, how they can be both designers and leaders in creating change, we raise awareness through empathy and give students choice and voice in ways that affect positive change in the world right now. Join us to explore the theme of social innovation in your classroom!

Social Innovation Project Feature @GlobalEdSsChat

GLOBAL ED STUDENT CHAT

Connecting K-12 students around the world to lead & learn

GLOBAL ED STUDENT CHAT (#GlobalEdSsChat) is a student-led Twitter Chat that connects K-12 students around the world to discuss topics related to character education, social justice, and citizenship. #GlobalEdSsChat creates opportunities for students to network with others, gain perspective, build relationships with new learning partners in a literacy-rich learning environment, experience social media as a powerful platform for learning, and establish a positive digital footprint.

TWEET & TALK

Join our monthly YouTube live events, or send us a request to join our Student Leadership Team on panel.

LEADERSHIP TEAM

Join our Leadership Team and use social media to share your voice and make a positive difference in the world.

Scan the QR code to learn more about joining our Student Leadership Team!

SLOW CHAT

Join in the conversation on Twitter all month long using hashtag #GlobalEdSsChat

A voice is the first step to change. Without a voice, people will feel powerless and hopeless in the face of adversity. GlobalEdSsChat gives voices to students on issues that impact the entire world. That's why it's so important.

~ Gobi Mathi, Student Leader, 2019 ~

Why Use Digital Human Library?

It was so incredible to be connected to so many people from countries around the world. Everyone was generating so many ideas to help solve the issue of climate change. And to be connected to climate change experts who asked us questions and shared their research made it the best experience I've ever had as a student.

~ Ahmed, Grade 10

It's not about *WHAT* you know, it's *WHO* you know...

Support K-12 student learning with access to hundreds of industry leaders, experts and organizations in every curriculum subject area.

Benefits for Students:

- Build relationships for learning
- Access experts across industries from around the world
- Explore new career paths
- Discover new passions
- Acquire valuable networking skills
- Build character
- Develop global competencies/ transferrable skills
- Learn new content
- Grow as digital citizens

Why? Because building relationships with others is how we learn.

Volunteer With Us

The important work we do at Digital Human Library would not be possible without our 20+ incredible volunteers and B.Ed student interns. As dHL continues to grow, so does our need for volunteers. If you are looking for opportunities to make a long-lasting, positive difference in the lives of students, then we need you!

Working as a dHL intern was an incredibly enjoyable and useful experience. Leigh's approach to bringing me on the team was the very thing that separated dHL from other intern positions I've done in the past. Leigh determined my role by leading with the following question, 'what opportunity can I provide that is of most interest to you?' which in turn resulted in a series of projects that I felt passionate working on. Additionally, my experience was one filled with building professional and personal relationships, as well as developing skills in areas that were best suited to my ambitions. I consider myself lucky to have been a part of this organization and to have worked under such a great mentor and now friend. Greg Sykes, 2021

Update Your dHL Profile!
