

Name: _____

After you take a **dHL Virtual Tour**, answer the following questions to evaluate the tour and determine whether it met your needs.

Name of dHL Virtual Tour: _____

Virtual Tour URL: _____

VIRTUAL TOUR	YES	NO	N/A	NOTES
NAVIGATION All features built into a virtual tour that supports your ability to comfortably navigate and move around the environment				
(1) Movement Experience Were you able to move easily around the space, experiencing a smooth transition between one point of interest to another?				
(2) Freedom of Movement Were you satisfied with the number of options and places you could choose to move within the tour's environment? <u>Notes:</u> How many options were there? Were there too many options? Too few?				
(3) Spatial Orientation Did the tour design include a map to support your sense of direction and location? Did the map allow you to see your location at all times? Could you always get back to the beginning?				
(4) User Controls and Input Modalities Did the tour provide on-screen controls to help you explore the environment? (e.g. directional arrows, icons to mark points of interest, interactive anchors - <i>hyperlinked images</i> - to launch video or audio files or move to a new location, etc.)				

VIRTUAL TOUR	YES	NO	N/A	NOTES
INFORMATION PRESENTATION The ways in which the system presents information to you in the tour	YES	NO	N/A	NOTES
(1) Visual Information Cues Did the tour include visual elements/cues to let you know about available information, options, and interaction opportunities? (e.g. clickable hotspots, labels, dialog windows, hovering media elements like 2D or 3D images, etc.)				
(2) Multimedia Support Did the tour include additional elements like audio-visual and textual elements? (e.g. guides, descriptions of items, additional imagery, audio cues, etc.)				
(3) Additional Information Were there any links to other Internet resources that would help you understand the subject matter of the tour better? <u>Notes:</u> Were additional resources needed?				
PROACTIVENESS The degree to which the system helps the user to perform or follow desired actions and mediates his or her experience	YES	NO	N/A	NOTES
(1) Navigation Proactiveness Did the tour guide you along from one point of interest to the next, through a progression of clickable information options and suggested movements? Did you feel the tour was predicting your next moves?				
(2) Interaction Proactiveness Did you feel like you were free to explore the tour without being prompted to choose one path followed by the next? Did the tour present you with options to interact with clickable information like text notes, audio-visual cues, message dialogues, and multimedia?				
INTERACTIVITY The extent to which users can interact with the system	YES	NO	N/A	NOTES
(1) Onboarding Experience Were you presented with one or more introductory screens and pathways that gradually guided you as a user, introducing you to the next available options, interactions, and content?				
(2) Interaction with Content/ Exhibits/ Rooms Were there options to interact with text, audio, and/or video? Were you able to interact with moveable 3D figures?				

ADDITIONAL QUESTIONS	YES	NO	N/A	NOTES
Was there a place to ask questions or leave feedback about the tour?				
Did the tour make you want to learn more about the topic?				
Did the tour allow you to visit a place that you would never be able to visit in real life?				

In your own words, describe taking a virtual tour and compare it with a real tour you have taken.
