**Virtual Tours & Virtual Reality**  
**Experiences for K-12!**

Our team of dHL Community Curators have been sourcing hundreds of new tours featuring art and culture from around the world, animals, exhibits, museums, the environment, how things are made, STEM, and more! Join us and enhance your classroom program in ways that provide students with an immersive digital window to the world.

## What is a Virtual Tour (VT)?

Virtual tours are the simulation of an existing location with the help of sequential videos or still images. Other multimedia elements like music, sound effects, floor plans, etc., could also be used. They help in recreating a realistic representation of reality. Virtual tours help in presenting views to inaccessible areas and provide an interesting and excellent alternative to fieldwork when expenses, time or logistics are a barrier.

## What is Virtual Reality (VR)?

Virtual Reality (VR) is a 3D computer generated 'virtual' environment that users explore and interact with in an immersive way. The feeling of being present in these environments requires the use of a VR headset. Some examples include: Oculus Rift, Samsung Gear VR, HTC Vive, Google Daydream View, or Google Cardboard.

While immersing yourself in VR requires a headset, the foundational component of all virtual reality is 360° video, which means that dHL tours can be navigated on desktop computers or mobile devices.

### Celebrating Indigenous Languages

A shared language is one of the most important connections among groups of people. According to the United Nations 2,680 Indigenous languages are at risk. Indigenous communities around the globe are working to preserve and revitalize their languages by teaching them to future generations and sharing them with non-Indigenous speakers.

# Education for Social Innovation

## What is Education for Social Innovation?

Education for social innovation is about recognizing and acting on the power we have for making a positive difference in the world. By creating opportunities for students to experience how positive change happens, and more importantly, how they can be both designers and leaders in creating change, we raise awareness through empathy and give students choice and voice in ways that affect positive change in the world right now. Join us to explore the theme of social innovation in your classroom!

## GLOBAL STUDENT CHAT

### Connecting K-12 students around the world to lead & learn

Global Student Chat (@GlobalEdSsChat) is a student-led social media chat that connects K-12 students around the world to discuss topics related to character education, social justice, and citizenship. #GlobalStudentChat creates opportunities for students to network with others, build relationships with new learning partners in a literacy-rich learning environment, experience social media as a powerful platform for learning, and establish a positive digital footprint.

# Why Use Digital Human Library?

*I like video conferencing because we get to meet lots of cool people who know lots of cool stuff. I got to meet a zoologist, a real artist and a video game designer. I didn't know I could be a video game designer. That's what I want to be when I grow up.*

~ Alyssa, Grade 5

*Volunteering with dHL has allowed me to give back to an industry that has molded me into the designer, researcher, and educator that I am today: Education. I was so happy to support education for youth across Canada with virtual reality educational content that fosters active and contextualized learning. The personalized training that I received at the onset, along with monthly meetings to converse and share ideas on new virtual reality educational tour categories made me feel valued as a team member; it was great knowing that my input mattered and had positively impacted teachers and students across the country! This has truly been an incredible opportunity to leave an indelible mark in Education. ~Stephie Hare, 2022*
